Raja Sekar D

Applied AI and Application Security

Bengaluru, India | raji.sekard@gmail.com

linkedin.com/in/rajsekdurai | github.com/rajsek | rajasekardurairaj.in | medium.com/@rajsek

PROFESSIONAL SUMMARY

Technical Lead with 14+ years in software engineering, combining TypeScript/LangChain agent development with application security research. Built tooling for bug triage across repositories and a published WebSocket security workbench. Targeting applied AI engineering roles with a security focus.

SKILLS

Applied AI: LangChain, LLM agents, OpenAI Codex
Engineering: TypeScript, JavaScript, React, Node.js, Java, Spring Boot, WebSockets
Application security: IDOR, Authentication testing, Reverse engineering, Responsible disclosure
Delivery and data: Docker, Kubernetes, Jenkins, Git, PostgreSQL, GraphQL

WORK EXPERIENCE

Technical Lead, Oracle India Private Limited | Bengaluru, India | Jul 2021 - Present

- Built a bug-triage agent in TypeScript with LangChain that checks reports against source code across connected repositories and flags duplicate reports and claims unsupported by the code.
- Created a reusable Codex skill to automate internal-tool workflows; adopted across the team.
- Led team adoption of AI-assisted Jira story authoring, Figma design and Oracle Visual Builder (VBCS) application development.
- Built reusable React components aligned with Oracle Redwood design standards and adopted across CX teams.
- Integrated React components into Oracle JET using Preact-Compat, enabling reuse across the two frameworks.
- Extended the micro-frontend setup to run OJET modules next to React, so teams reuse components across both.
- Migrated apps from VMs to a Kubernetes cloud setup.

Tech Lead, BNY Mellon Technology Pvt Ltd | Chennai, India | Oct 2017 - Jul 2021

- Led development of Orchestration, an internal portal for market users handling 100k+ records.
- Improved application loading through code splitting, gzip compression and frontend optimization.
- Led the move to a containerized architecture with CI/CD: deployment time down 30%, release cycles 25% shorter.
- Built a React/Tailwind interface for a CLI-based deployment process to reduce manual steps.

Senior Software Developer, KRDS | Chennai, India | Aug 2016 - Oct 2017

- Built web apps and chatbots for AXA and Thomas Cook social media campaigns.
- Integrated Facebook Business Manager APIs in AXA's Employee Customer Engagement app to manage 1000+ employee accounts and publish insurance updates from agent profiles.

Software Engineer, TCS | Chennai, India | Sep 2012 - Aug 2016

- Developed the Strategic Lead Management (SLR) and E-Statement applications.

SELECTED SECURITY RESEARCH

- **Meta:** Reported 6+ high-severity issues involving IDOR and reverse engineering; worked with the security team on fixes.

- **Race photography platform (2026):** Reported an IDOR exposing other runners' photos, buyer email and payment status. Fix confirmed; write-up published on Medium.

PERSONAL PROJECTS

WebSocket Debugger + Security Workbench, Chrome Extension | Personal project | 2026

- Built and published a TypeScript/React Manifest V3 extension with a WebSocket debugger and a host-bound Security Lab for authorized testing and redacted evidence export. Available on the Chrome Web Store.

AWARDS

- Listed in Meta's bug bounty Hall of Fame twice (2015 and 2022), US$25,000 total rewards.
- Top 10 in the BountyCon 2022 CTF (Singapore), earning a place at the live bug bounty event.
- BNY Mellon Cyber Steward award (2021) for a responsibly reported vulnerability.
- Samsung security acknowledgment and reward (2017) for a critical shopping-portal vulnerability.
- Zerodha security acknowledgment (2016) for a responsibly reported registration-flow vulnerability.

CERTIFICATIONS

- Professional Scrum Master I (PSM I), Scrum.org - Feb 2024.
- Oracle Cloud Infrastructure (OCI) Foundations Associate.

EDUCATION

Bachelor of Technology, Information Technology, Sri Sairam Engineering College | Chennai, India | 2008 - 2012
